THE APRIL SCHOOL REFERENDUM: FOUR WAYS TO DISMANTLE EDUCATION

Rockefeller's plan to deliberately create a political and economic mess, to sow such panic and hysteria that people begin crying for the bankers' "solution" — military dictatorship — is emerging in Boston. Added to the list of familiar hoaxes like "shortages" in food, oil, and raw materials, is the phony school "reform" referendum to be voted on in April.

During the last few months, John Kerrigan and Louise Day Hicks have been the errand boys for Rockefeller's police arm, the Law Enforcement Assistance Administration (LEAA), the Central Intelligence Agency's domestic force. Taking their lead from the masters at chaos and confusion, these fools have raised the battle cry, "Stop the Busing!" As tempers flare, fights break out, buses are burned, the stage is set for open race war. This is where the CIA/LEAA's "man in Boston," Robert Kiley, steps in and directs his poverty pimp "community organizers" to set up his Gestapo network of community-police patrols. Already the Columbia Point project has received \$35,000 in LEAA money for its own Nazi "security" plan.

But where do we turn, what voice do we have? If we swallow Rocky's menu, all we get are the four school "proposals." Do we pick the one which leaves the current discredited school committee structure intact or do we "choose" Robert Kiley's decentralization plan which will divide the city into dozens of strategic hamlets, each tearing at each other for a chunk of Mayor White's handouts. A blindfold offered a condemned man about to be executed would be more of a choice.

But there is only one real alternative to Rockefeller's nightmare. This week working class leaders from across New England will be holding a regional conference of the North American Unemployed and Welfare Rights Organization (NU-WRO). They will be making their own choices of how the working class will run the economy themselves. They will be deciding how much housing, schools, what type of mass transit, the entire working class needs. Members of the Revolutionary Youth Movement (RYM) will be outlining RYM's battle plan for defeating the LEAA's fascist plans for the ghetto. Delegates will be elected to the semi-annual National NU-WRO Conference, to be held in New York, March 30 and 31.

It is NU-WRO and the few thousand workers around it who are holding the line against Rockefeller's world fascist plan. In Britain he has already succeeded. There the working class was slapped with a three-day work week and then given the "choice" of two bankrupt parties for government. Soon the cry for "law and order" will be raised and, as in Germany in 1933, the "final choice" will be made. In a few weeks, fascist Enoch Powell will step in and the grave will be sealed.

We must organize now to stop Rockefeller, Kiley and the CIA. The US Labor Party campaigns of Larry Sherman and Jim Kiggen for Congress is getting out the word that the April referendum is a CIA fraud. We intend to bring Robert Kiley up for trial, charged with crimes against humanity under the international Nuremberg Law. There is a real choice — come to the regional and national NU-WRO conferences.

DEFEAT ROCKY NOW!

EXPOSE THE SCHOOL DESTRUCTION /DECENTRALIZATION!
